

Magellan® 9500Ω

Dual Antennae Integrated Sensormatic® Ultra•Max® EAS Deactivation

At A Glance

"I usually bring 200 gift cards to a grand opening to give to customers for FTD's (Failure To Deactivate Errors). There were no failures due to the Magellan 9500's - those are great".

—Major Mass Merchandise Retailer on the Magellan 9500 OmegaTek with Sensormatic EAS Deactivation

What are Dual EAS Antennae and OmegaTek™ Technologies?

The Magellan models 9503Ω and 9504Ω have two EAS antennae, one in both the horizontal and the vertical planes, increasing detection and deactivation volume by 30%.

- This results in significant reductions in Failure to Deactivate occurrences at the exit gates and improves customer service.

OmegaTek™ Productivity Technology utilizes new ASIC's and firmware innovations that significantly improve scanner performance.

- Improved front end productivity by reducing re-scans or no-scans.

FEATURES	BENEFITS
• OmegaTek™ Productivity Technology	• Improved reading of hard-to-read bar codes improves front end speed & productivity
• Sensormatic Ultra•Max® EAS Deactivation capability	• Reduces deactivation failures by offering single step scan & deactivation of Sensormatic EAS tags
• Dual EAS Antennae in the vertical & horizontal planes (models 9503/9504)	• De-Activation Volume increased by 30%
• Six-sided reading SurroundScan® technology	• Significantly reduces Failure to Deactivates (FTDs)
• All-Weights™ scale platter	• Flexible orientation improves productivity & ergonomics
• Enhanced decoding with FirstStrike® decoding software	• Reduces produce shrinkage by up to 2% of weighed produce
• Low energy consumption. Can be powered from many POS terminals.	• Higher read rate of truncated & hard-to-read labels resulting in improved front-end productivity
• High level of serviceability & reliability	• Up to 77% lower energy costs than competition while reducing AC outlets in the check-stand
Value Added Features	• High reliability reduces downtime & easy serviceability means faster repairs & more efficient servicing
• Host Download	• Lowers service cost & improves operations
• Diagnostics Reporting	• Lowers labor costs to service & manage assets
• Productivity Index Reporting	• Identifies hard to read barcodes
• Cashier Training™ / Ergonomic Index	• Identifies poor scanning habits & increases productivity

Accessories

- Scale (optional model choice)
- IntelliCompass® Productivity Enhancement software
- Two glass options (Sapphire or DLC)
- Cables, power supplies & cords
- Extended warranty
- Service options
